

MANAGED CLOUD SERVICES

Your expert team in Cloud Service

Concentrate in what you do best.
We take care of the rest.

MARKET CONTEXT

The transformational moment that the world of infrastructure and IT management has been experiencing in recent years is requiring companies to have highly specialized teams to carry out the changes and evolutions they need to adapt to the new times.

Delegating the design, consulting and management of these new infrastructures to expert teams, such as Telefónica Global Solutions, guarantees that your company will adopt new developments in the fastest and most efficient way, in terms of time, costs and effort.

OUR PRODUCT

Our Managed Cloud Services service aims to help you improve your business alignment with the latest managed technologies, achieving increased productivity and reduce total cost of ownership.

We have the most experienced team to provide the agility and scalability you need in times of rapid change and uncertainty. Our presence with Data Centers in major cities around the world will give you the reach you need, when and where you need it, always with Telefónica's high availability and the best certifications.
